

# Quick Start

First, Run **nwStart.exe** to start the Capture program.

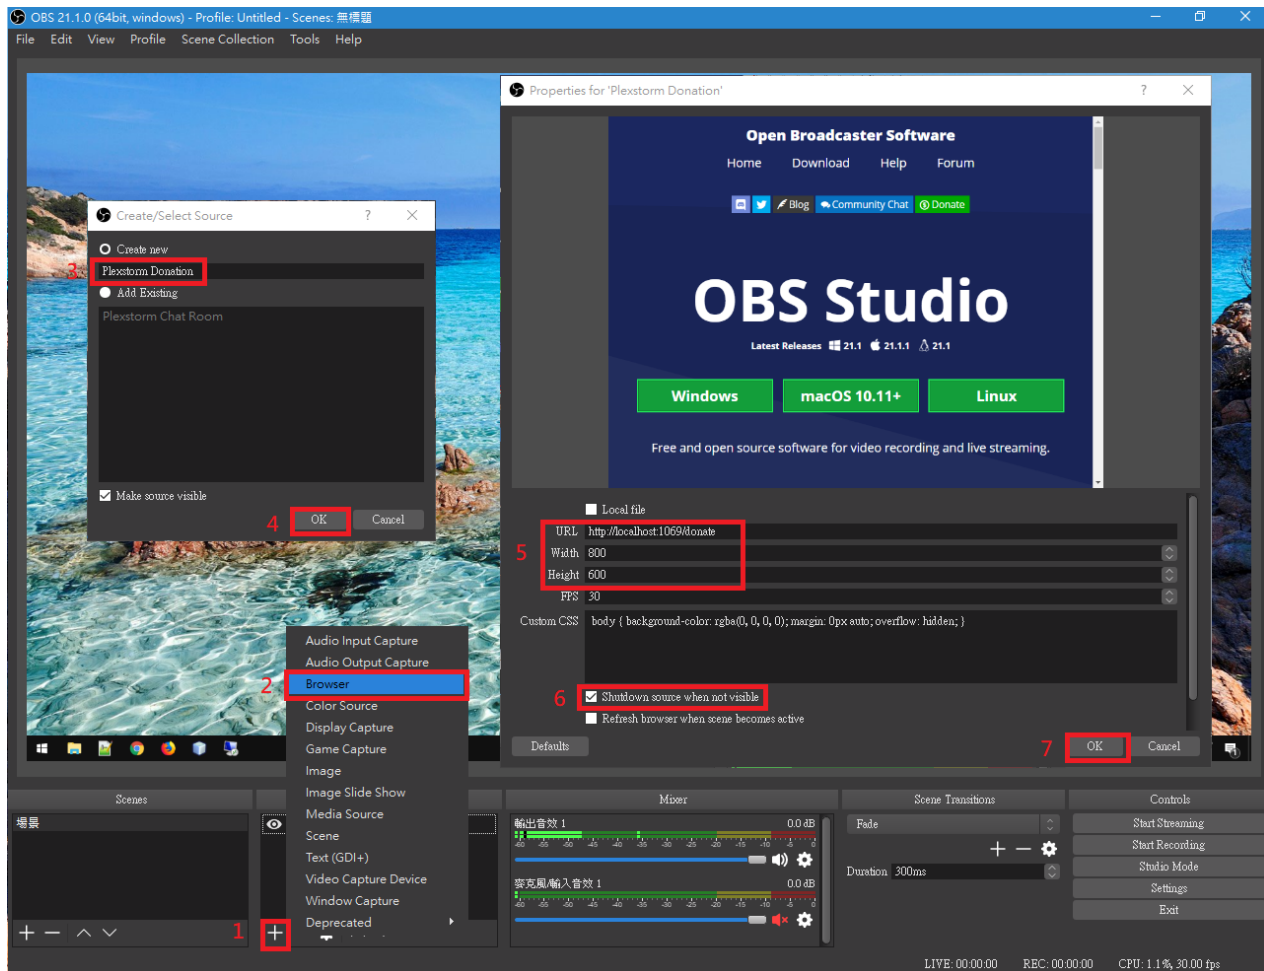

Please allow it to communicate on **both private and public networks**.

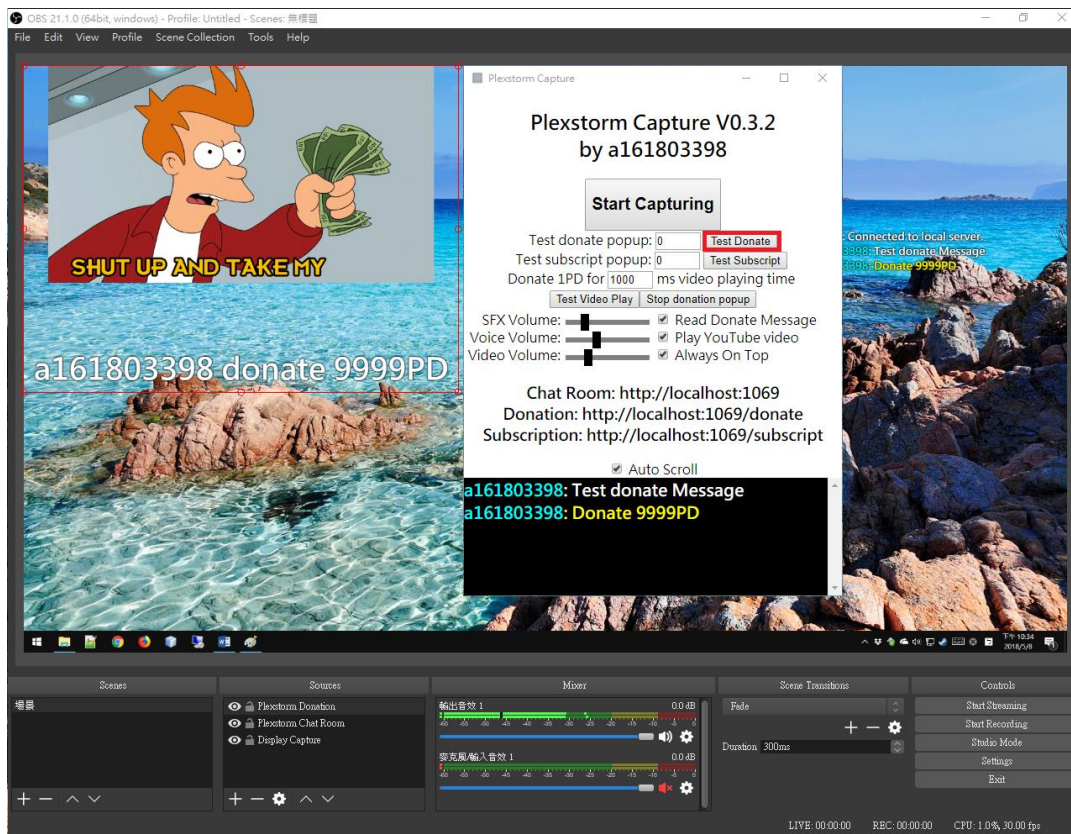

Then open OBS Studio

Add a new browser source and named it “Plexstorm Chat room” input URL **<http://localhost:1069>** and **check “Shutdown source when not visible”**

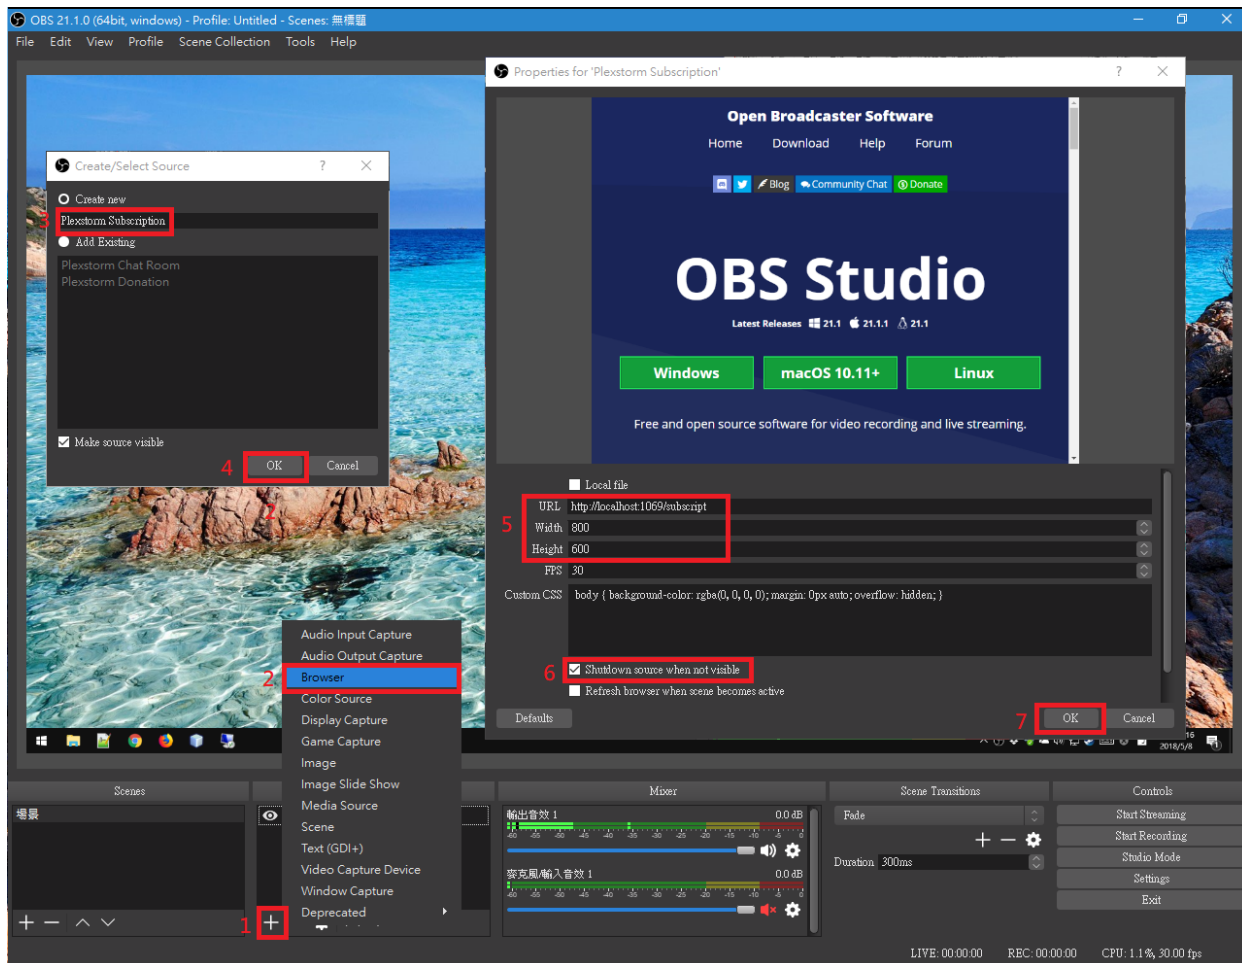

Fellow the same procedure above but this time, name it “Plexstorm Donation” and input <http://localhost:1069/donate> in URL

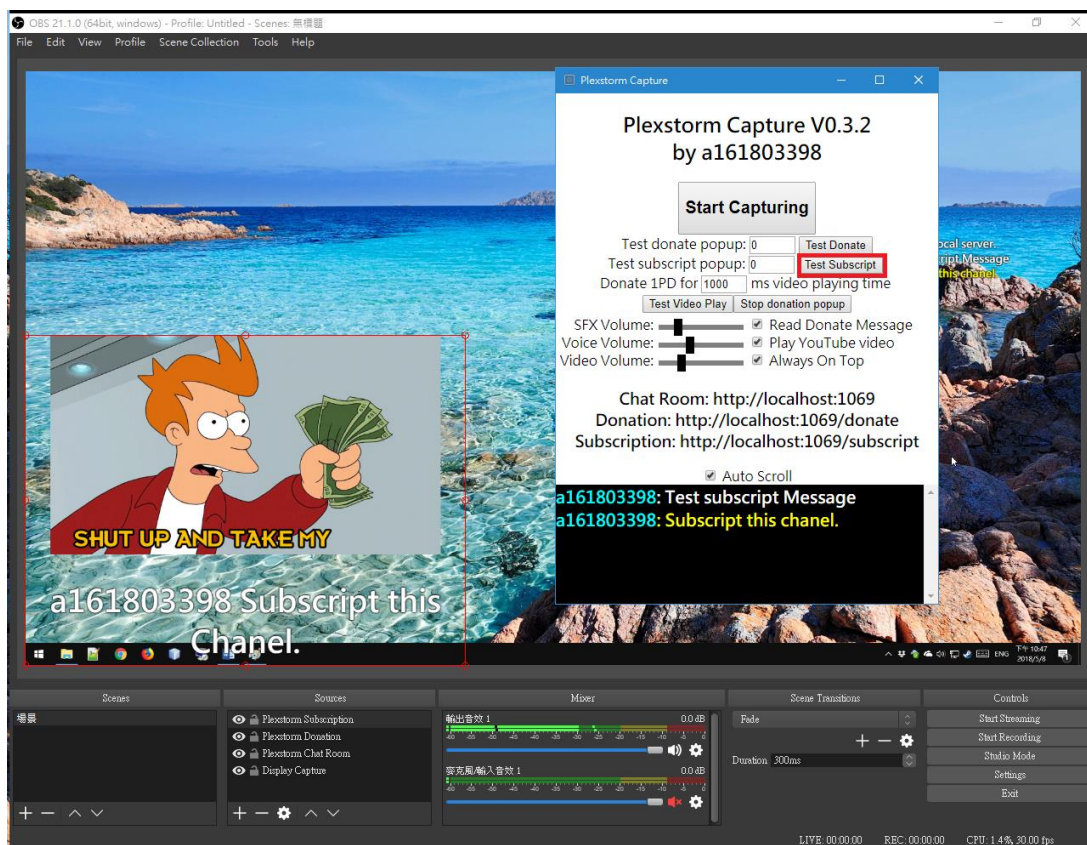

Click “Test Donate” Button, and you should see donate popup on OBS Studio

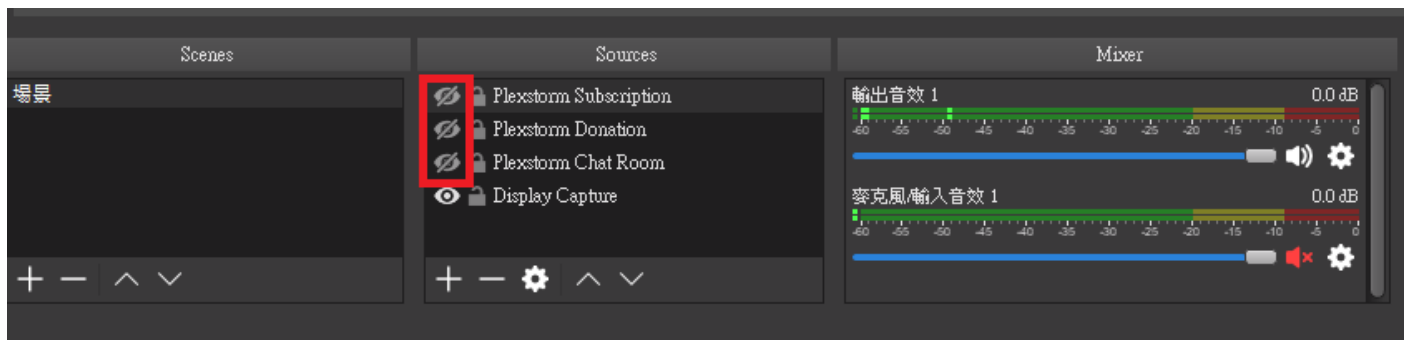

Follow the same procedure above again, but this time, name it “Plexstorm Subscription” and input <http://localhost:1069/subscript> in URL

Click “Test Subscript” Button, and you should see subscript popup on OBS Studio

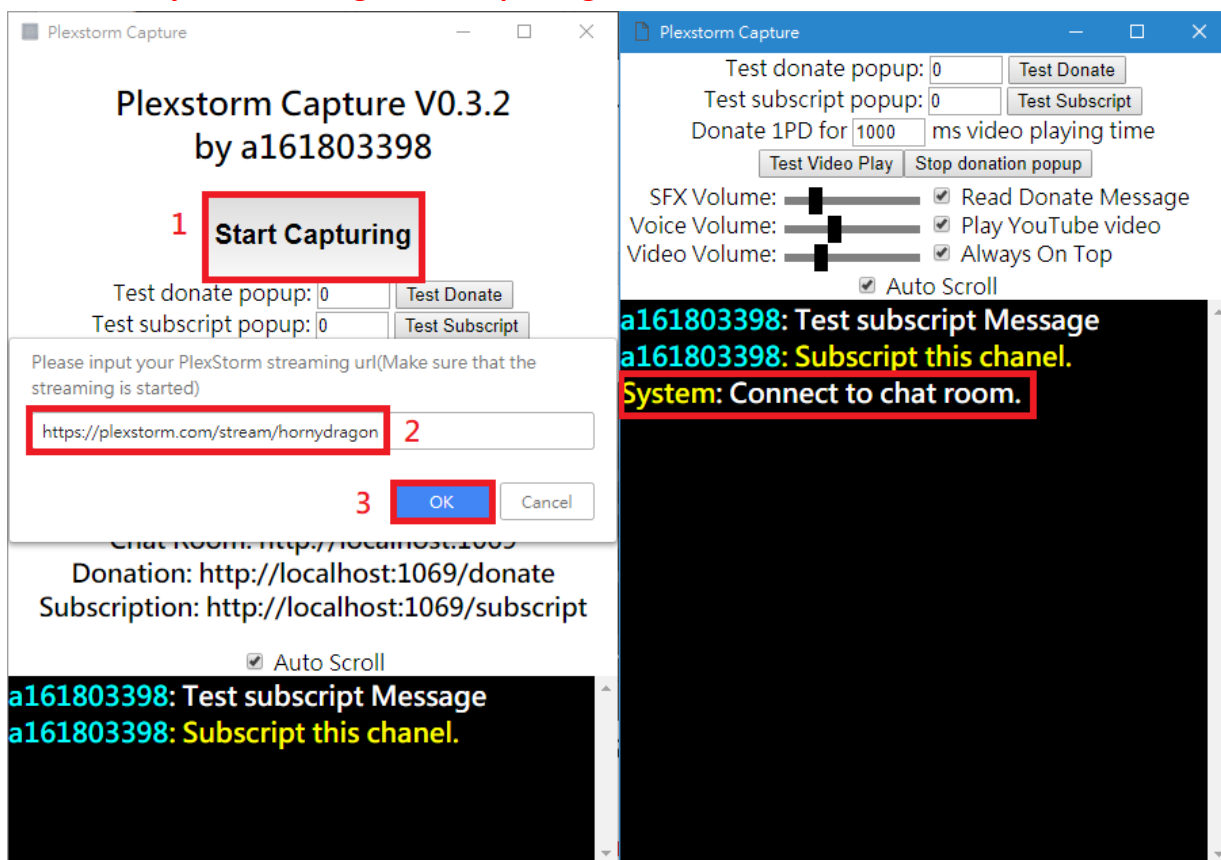

You can click the **“Eye Icon”** on OBS Studio to hide popups and chatroom, click them again will reload and show the popups and chatroom.

Next time, Please run **“nwStart.exe”** before click them again to show the popups and chatroom.

If popups and chatroom stop working, try to hide and show them may solve the problem.

**Please start your streaming before capturing.**

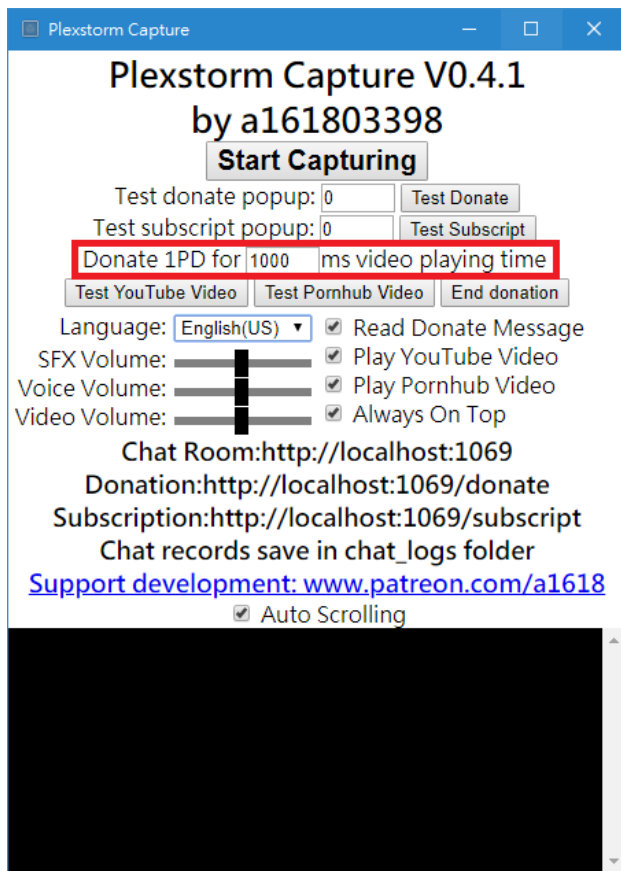

Click “Start Capturing” and enter your streaming URL.

Wait until you see text ” Connect to chat room.”

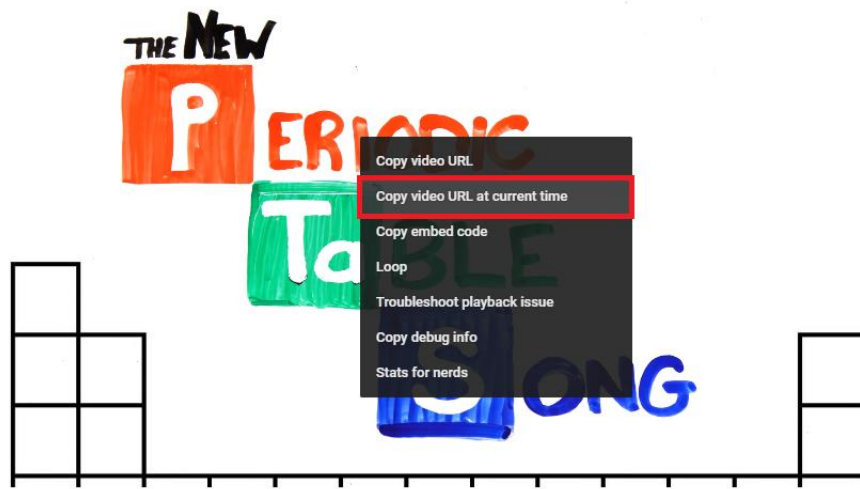

Now everything should work fine.

# Read Donate Message and Play Donate Video

If you check “Read Donate Message”, program will read the donate user last message.

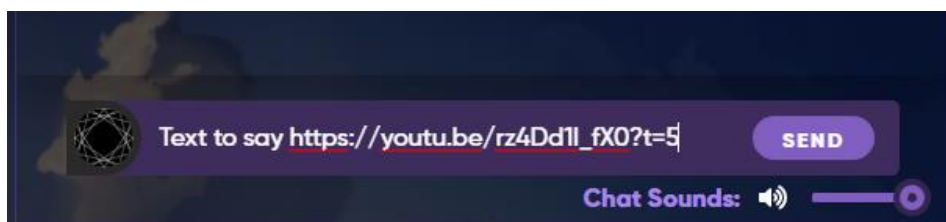

If you check “Play YouTube Video”, and the donate user last message contain a YouTube link at the end, then program will play YouTube Video for some time based on PD amount and your setting.

If user want to play YouTube video in donate, they should send a message with YouTube link **before** donation and then donate immediately.

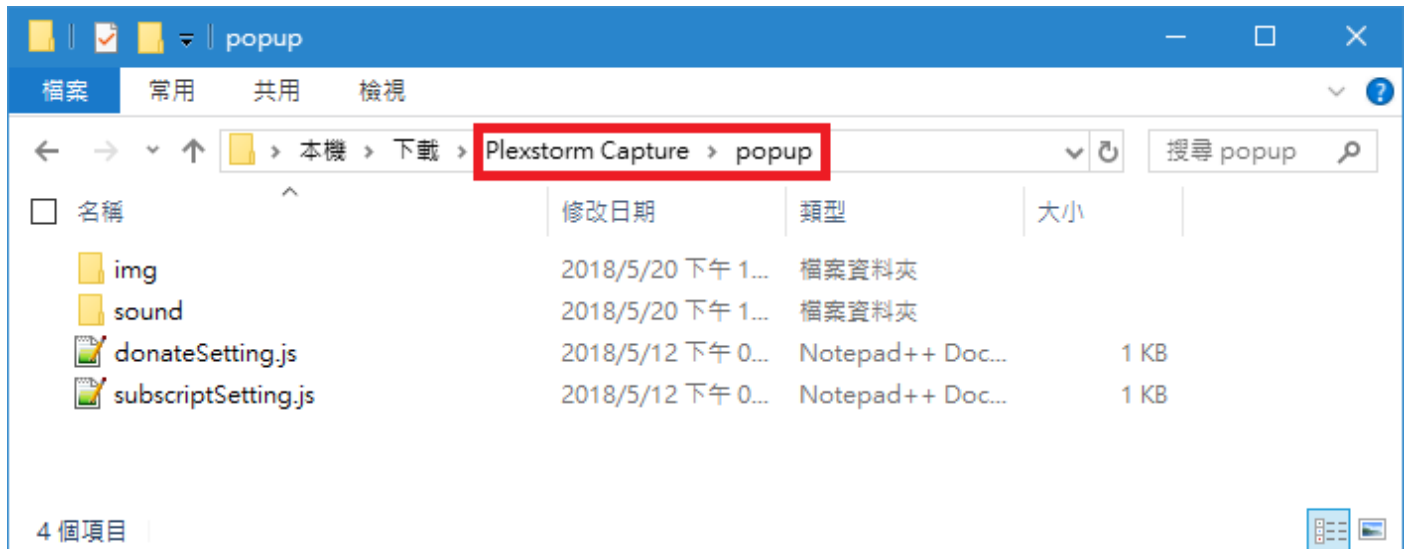

In addition, it works on Pornhub video too, just replace YouTube link with Pornhub link.

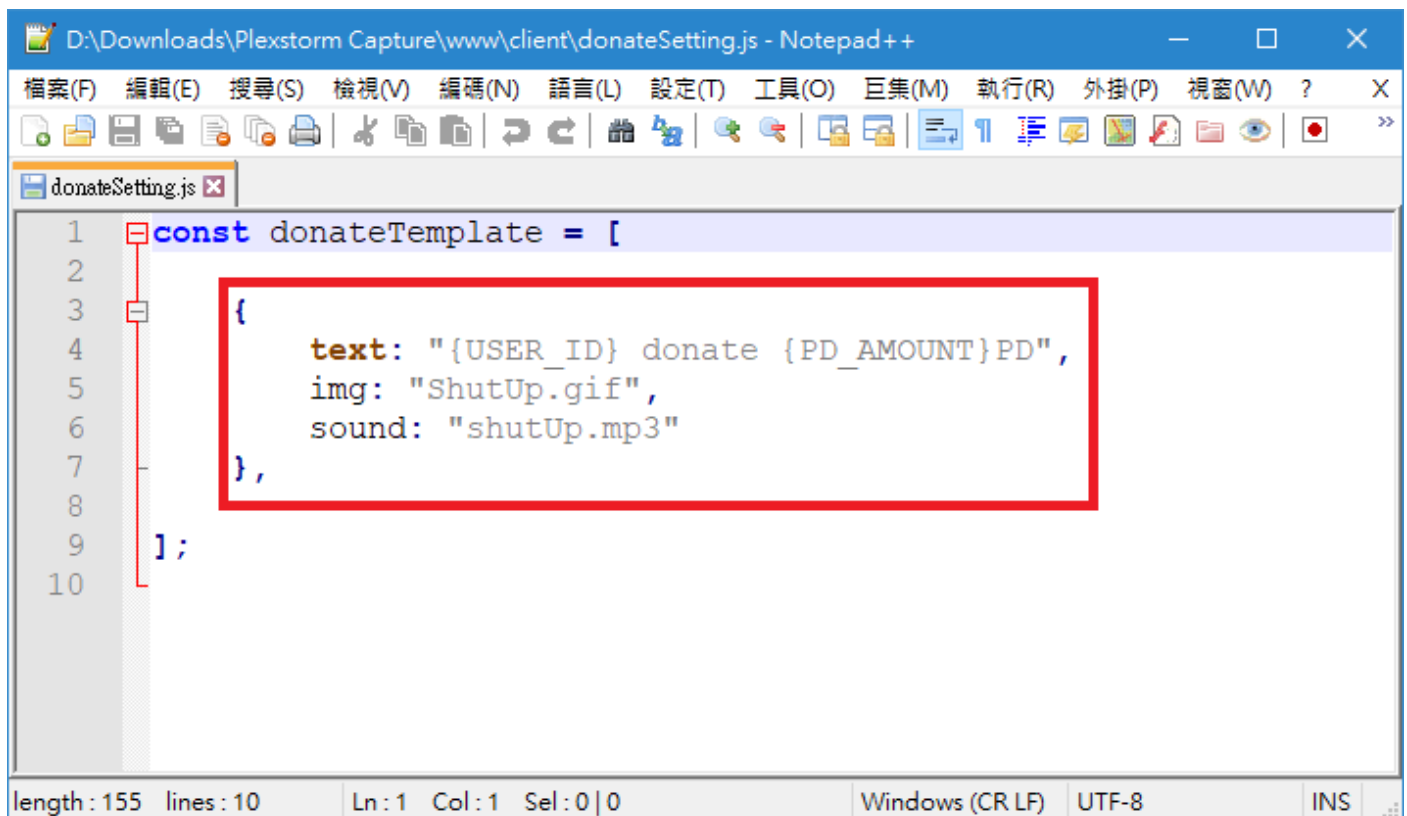

# Customize Donate Popup

Please close capture program and OBS window before starting.

Go to application folder "popup"

And open decodeMsg.js with Text Editor ,

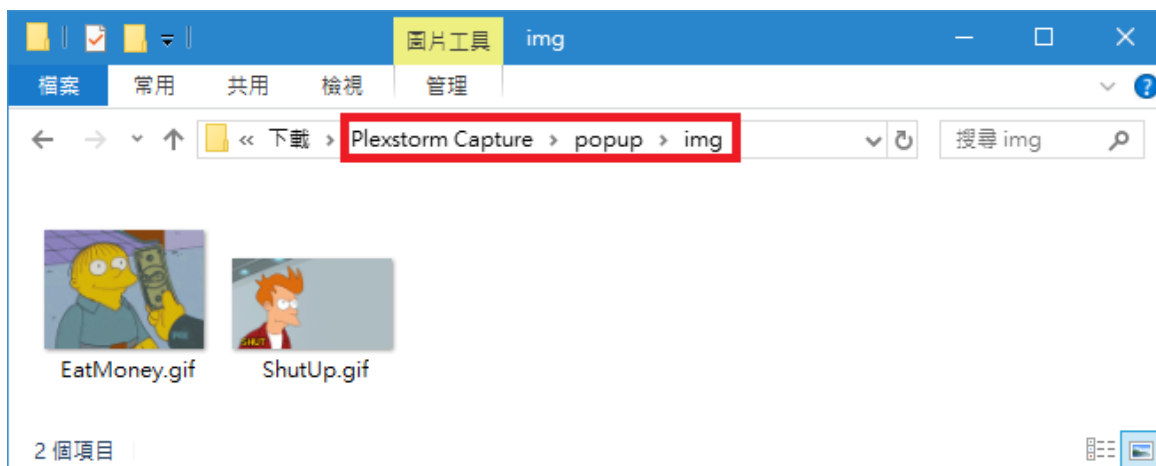

Copy and paste the text to add new donate popup.

```
*D:\Downloads\Plexstorm Capture\www\client\donateSetting.js - Notepad++
